386 PARK AVENUE SOUTH, NEW YORK, N.Y. 10016 • PHONE 212 - OR 9-5900

THANK YOU FOR YOUR INTEREST

IN OUR NEW X-3R REPEATER

... the completely new and different copy card duplicator.
We appreciate your inquiry.

When the X-3R Repeater was still in its early stages, we knew we were on the way to the development of a duplicator with features that surpassed any other machine used for making copy cards, including the highest priced versions.

Who would ever think this machine, a desk top model, could produce 750 copy cards an hour? Or operate fully automatic and unattended? Or deliver up to 20 copies of any one card just by dialing the quantity? Or, would sell for only \$5950? Kleer-Vu's research and development team did!

We could tell you about the exclusive "no-jam" construction that insures against loss of sequence and ruined cards. We claim there's no other copy card reproducer like the X-3R Repeater. You can see it in action! Come see us at the VCC Show

Great Western Exhibition Center
in Los Angeles
on November 5th thru 8th,
Booth 219

Or, call me today and I'll arrange a mutually convenient time to see it in action in our headquarters.

The microfilm industry has never seen a machine like this and we're extending you an invitation to see it here or at the VCC Show.

Please call me. You'll be both surprised and pleased.

Sincerely,

A handwritten signature in blue ink, which appears to read "Robert Thelerson".

AN UNBELIEVABLE CONCEPT

THE INDUSTRY HAS NEVER SEEN A MACHINE LIKE THIS!

1. Speeds of 750 cards per hour
2. Fully automatic unattended operation
3. Hopper fed input—separate controls
4. Dial up to 10 copies
5. Easily serviced
6. No venting required
7. Exclusive "No-Jam" construction
8. Portable—attractively designed

AN UNBELIEVABLE PRICE: \$5950

AN UNBELIEVABLE CONCEPT

THE INDUSTRY HAS NEVER SEEN A MACHINE LIKE THIS!

BLE PRICE: **\$5950**

There's No Other Microfilm Copy Card Reproducer Like This One

YOU CAN PROVE IT!

The Model X-3 R Repeater copies microfilm cards like no other card to card reproducer can. It is fully automatic, having the capability of dialing multiple copies—up to 10 copies from one original. A desk top unit, it is fully portable and attractively designed. The X-3 R Repeater is easily serviced since all its components are modular. Its intermediate speed provides up to 750 cards per hour. Cards are independently feeder controlled eliminating jamming for good. The “no-jam” construction insures no loss of sequence and no ruined cards.

If you're a user of copy cards you've got to see this new machine! There is nothing resembling it on the market!
